KANSAS ALCOHOL CONSUMPTION IN THE LAST 30 DAYS BY SEX

SOURCE: BRFSS 2023

WHAT HAPPENS AFTER QUITTING DRINKING

- The first month is the hardest—withdrawal and getting used to no alcohol.
- After a few weeks, your sleep, skin, and stomach start feeling better.
- Around 3 months in, your liver heals, you might lose weight, and your mood improves.
- At 6 months, you've built new routines and cravings aren't as strong.
- By 1 year, you feel stronger, happier, and ready to take on new goals.

Kansas spends **17.4%** of its total budget on the burdens of substance abuse and addiction but only **0.27%** of its total state budget on substance abuse and addiction prevention treatment and research
